

SCOTTISH BALLET

Job Description

Job Title	Technical Apprentice
Location	The role is primarily based in our Glasgow HQ with requirement to tour around the UK
Team	Technical
Key Relationships	
Reports to:	Technical Director
Direct Reports:	N/A
Key relationships:	Day-to-day interactions will mainly be with our Technical team. The ability to build excellent relationships with all Scottish Ballet staff will also be key.
Purpose	
<p>Through a blend of (paid) work experience and learning outcomes, you will acquire key skills and confidence which will enable you to work to a high standard, in line with both Scottish Ballet standards and the required Health & Safety standards.</p> <p>With support from both Scottish Ballet and Edinburgh College, the desired collective outcome (and individual benefit to you) will be the successful achievement of a Modern Apprenticeship SCQF Level 7.</p>	

Responsibilities & Key Functions

- To learn and develop confidence, knowledge and professional skills through (paid) on-the-job learning.
- Support the Technical team in the preparation and smooth running of our touring productions, representing Scottish Ballet and indeed Scotland on a world stage.

Desirable Skills & Experience

- A keen interest in technical subjects
- A keen eye for detail, working to a high standard
- Sound computer skills
- Good communicator with a friendly customer service approach
- Ability and willingness to work to own initiative and as part of a team
- Like working in a diverse team environment, and interacting with lots of different people
- Enjoy a new challenge (a pragmatic and logical thinker)

General Characteristics

- Friendly, approachable, and presentable
- A willingness to work in a practical environment using your own initiative
- Conscientious, enthusiastic, and reliable
- Keen to learn and positively contribute to what we do
- Ability to maintain confidentiality
- An interest in Technical Theatre, and the arts would be advantageous
